

# *Custom Wine Labels*

At Shadow Springs Vineyard we have the ability to create custom wine labels for our wine bottles. Our custom labels are 3 inches by 4 inches in size. They can be either landscape or portrait in orientation.

When creating your label the easiest way to send it to us is electronically. If you have something on a disk or a flash drive that will work as well. We prefer high resolution jpeg images for a cleaner transfer to the label but we can scan it if necessary. We have several stock images if you just want to have your photo and or verbiage added to the stock label. If you do not have the ability to create a jpeg image to send us, put what you want in a "Word Document" and we should be able to move the images and verbiage to our label software. Once you have your label complete, just email it to us at: [Chuck@shadowspringsvineyard.com](mailto:Chuck@shadowspringsvineyard.com) . Or you can bring it to the tasting room and we can download it into the label program.

<b># of labels</b>	<b>Cost:</b>
2-5	\$3.00 per label plus a \$15.00 set up fee
6-11	\$3.00 per label plus a \$5.00 set up fee and a 5% discount on wine
12-23	\$3.00 per label no set up fee and a 10% discount on wine
24+	\$3.00 per label no set up fee and a 15% discount on wine

All labels will be put on the Shadow Springs Vineyard's wine of your choice. This is a great gift idea.

**Timing:** We ask you have your image to us 2 weeks before you need the labels. This will give us time to produce the label. We will also spray your label with a water resistant spray. This **does not** make the label waterproof but will help keep the ink from running if it gets some liquid on it.
